

**SK Heating & Cooling Ltd**  
**Environmental Policy Statement**

The Directors and employees of SK Heating & Cooling Ltd are committed to minimising the impact of their activities on the environment. Through its EMS system, environmental aspects and impacts are regularly reviewed and continually improved. Employees are clearly informed, and are required to be conscious of their effect on the environment and to put into practice any improvements. The Company aims to promote more environmentally friendly and energy efficient products to customers and this ethos must be reflected in the way the Company conducts its own business. We will set and review environmental objectives and targets annually.

The key points of its strategy to achieve this are to:-

Meet or exceed all environmental legislation and other requirements that relates to the Company.

Commit to continual improvement and prevention of pollution.

Seek to reduce the wastage of office resources by reusing or recycling. Seek to use products that offer less wastage.

Aim to deal with companies who wish to minimise their impact on the environment.

Use registered waste disposal companies or licensed tips for the disposal of waste materials, particularly hazardous waste, and ensure such companies comply with relevant environmental legislation.

Seek to use the most environmentally efficient means of transport and use these in a manner to minimise the consumption of fuel and limit unnecessary journeys.

Promote environmentally friendly products to customers.

Keep sites clean and tidy to ensure minimum disturbance and disruption to clients and their neighbours.

Make efficient use of natural resources by minimising water consumption and conserving energy.

This policy is communicated to all persons working for or on behalf of SK Heating & Cooling Ltd and is available to view on the Company website.

Signed .....

Simon Kershaw  
Managing Director
